Dear Ms. Carbin,

Thank you so much for taking the time to speak with us a couple of weeks ago. It was a delight to get to know you, as well as the problem you described to us.

In the past couple of weeks, we have been working on understanding the problem deeply so that we can develop some design concepts to help solve the issue.

We would like to meet to review three of our strongest concepts with you so we can hear your thoughts on each idea, as well as to gain a stronger understanding of how well each concept could work for you.

Are you available to meet at any of the following times next week for an approximately 1 hour Zoom meeting?

- Wednesday, Sep. 23, 3:15pm-4:15pm

- Friday, Sep. 25, 12:30pm-1:30pm

If none of these times work for you, please let us know and we can provide more times of availability. I'll send the Zoom link and password once we have a time scheduled.

Looking forward to meeting with you again!

Thank you,

Andrew Manteau, Aryan Pericharan, Adewola Orogade, and Martin Lopez
